Professional Experience

Software Engineer

Jun 2020 – Present | Istanbul, Turkey

Garanti BBVA Technology

- Developed loan and credit features for **Garanti BBVA Mobile**, serving 18.1M active mobile users within a **30.6M+ customer base** and supporting services processing **300K+ loan applications per day**.
- Led architecture initiatives and prepared technical design documents for migrating **monolithic and mainframe-based services** to **Java/Spring Boot-based open-system microservices**.
- Contributed as part of a **3-person team** to the renewal of **garantibbva.com.tr**, a high-traffic banking website with around **10M monthly visits**.
- Created an **AI-powered accessibility agent** for application forms and calculators, helping developers **identify and improve accessibility issues** in digital banking flows under their ownership.
- Contributed to the end-to-end renewal of the **overdraft product** in **Garanti BBVA Mobile** using **React and Spring Boot**, integrating **CrowdStrike Falcon** for fraud and security checks and helping increase overdraft utilization by **1.2%**.
- Currently contributing to the development of a lightweight **Garanti BBVA mobile experience for teenagers aged 12–17**, using **React, Spring Boot, Java 21, Oracle DB, and gRPC**.
- Implemented **regulatory and compliance-driven banking requirements** aligned with Turkish banking regulations and the Central Bank of the Republic of Türkiye.

Education

Computer Science & Engineering

2015 – 2020 | Istanbul, Turkey

Sabanci University

Double Major, Management

Exchange Student, Computer Science

2019 | Seoul, South Korea

Hanyang University

Certifications & Awards

AWS Certified Cloud Practitioner (CLF-C02)

Nov 2025

Amazon Web Services

Turkish University Entrance Exam

Ranked **1,400th among approximately 2 million candidates**.

Technical Skills

Backend — Java, Kotlin, Spring Boot, REST, gRPC, Microservices, Distributed Systems

Frontend — React, Next.js, JavaScript, TypeScript, AEM

Databases — Oracle DB, PostgreSQL, Firebase

DevOps & Cloud — Docker, OpenShift, Jenkins, CI/CD, AWS, Hetzner

Testing — JUnit, Mockito

Mobile — Android, Kotlin, Java, iOS, Swift, Objective-C

Projects

Football Passport — footballpassport.app

World Cup tracking application

Built and deployed a full-stack World Cup tracking platform using **Next.js, Kotlin Spring Boot, Docker**, and **Hetzner**.

doviztr.com

2020 – 2022

Financial Website

Built a financial website with **17K monthly sessions**, featuring real-time market data, financial news, user profiles, comments, and price alerts using **Node.js, Express.js, Firebase, WebSocket**, and **Cloud Functions**.
